

Project 4 - Routing & Parse

Due

Wednesday, July 8th, 2020 @ 11:59p

Release 0.2.0 on github and upload .zip file to Canvas

Goals

1. Add multiple routed components and dynamic routes.
2. Refactor app to use Parse NoSQL database instead of fake database.

References

- [parse js sdk guide](#)
- [parse server udemy sections 3-5 and \(11 back-end\)](#)
- [angular-parse](#)
- [back4app](#)

Notes

- Use Front-end is for taking user input and manipulate data in db.
